### THREATENS TO USE "STEEL AND IRON"

Launches Drive To Bring All Central Europe Into His Camp

BERLIN, Feb. 21.—Adolf Hitler, given an unlooked-for victory in the resignation of Anthony Eden as British foreign secretary, today plunged into his drive to bring all central Europe into his camp and win autonomy for the 3,000,000 Germans in Czechoslovakia.

### Ringing Defiance

His policy speech before the Reichstag, with its ringing defiance of Germany's foes, its threat to use "steel and iron" to fight for German minorities abroad, "unmistakably" Yugoslavia, Hungary, and Bulgaria, according to high German official quarters.

Those nations are expected to rush pell-mell into Hitler's fold, leaving Rumania to come to terms also or be isolated.

Bets are already on in diplomatic quarters that by the end of next summer President Edouard Benes of Czechoslovakia will pay a visit to Hitler similar to the one the premier of Austria made, which resulted in Austria's Nazification.

Rejoices At Eden's Fall  
Hitler's triumph was completed, his cup of joy overflowing, when he sat in the chancellery last night and heard over the telephone the London embassy's description of the fall of Eden, the young proponent of the League of Nations, whose activities have long been snarled in the hair of Fascist dictators.

France was dismayed, Britain was indignant, Czechoslovakia and Lithuania were alarmed, and Italy and Japan were gleeful over the

### International Brigades Reported Nearly Wiped Out In Battle At Teruel

(BULLETIN)  
International News Service

HENDAYE, Franco-Spanish Frontier, Feb. 21.—American, British and Canadian international brigades were nearly wiped out in the slaughter at Teruel as thousands of Spanish Loyalist troops were slain, insurgent advisers today said.

The most curious battle of the civil war today found Teruel, spearhead of the insurgent salient in the east, almost wholly under Rebel domination.

The city is "militarily untenable" for the government forces, the insurgents said.

The Rebels have now wholly encircled it, having closed a two-mile gap on the south. Many Loyalists are trapped inside.

At Barcelona, however, it was asserted that the Loyalists still hold their second line of defense at the foot of El Maresme Heights. It was denied that the insurgents had cut the main Teruel-Valencia road.

Hand-to-hand fighting was reported going on in the suburbs of Teruel, which had previously been captured by the insurgents, then retaken by the Loyalists.

United States Will Continue To Push Program Of Defense Preparedness

WASHINGTON, Feb. 21.—Not since anxious World war days has Washington viewed the European situation with such deep concern as today.

Adolf Hitler's virtual annexation of Austria, his defiant speech to the world, his demand for colonies, his threat to take Czechoslovakia next, his re-affirmation of the Berlin-Rome-Tokyo axis, coupled with the British cabinet split, all combined to produce a feeling of extreme pessimism in official quarters.

U. S. To Stay Clear

In the circumstances, administration policy is to stay clear of it all, and push forward as rapidly as possible the billion dollar expansion of the American navy—an expansion that contemplates not one fleet capable of protecting one coast-line, but two fleets capable of protecting both the Pacific and Atlantic coasts.

Administration leaders hope that one result of the epochal developments of the last week in Europe and Asia will be to diminish the opposition to naval expansion in congress. Even the most pacifist-minded member, they believe, cannot fail to be impressed by the fact that the old world, including Asia, is now going through a great evolutionary process, which the United States cannot ignore and for which the United States should be prepared.

Until the resignation of Anthony Eden as British foreign secretary, revealing the depth of the British rift, it had been hoped here that Britain and France would stand together against the encroachments

### G-MEN REPORT MUCH WANTED MAN ARRESTED

(International News Service)

WASHINGTON, Feb. 21.—Leonard C. Jackson, charged with complicity in the \$39,000 robbery of a South Charleston, W. Va., bank, and wanted in Indiana on a murder charge, was arrested in Baltimore, the Department of Justice reported today.

Jackson carried two pistols, ammunition and \$426 when the agents arrested him.

The department said Jackson and Ray Duval, who is still a fugitive, were charged with killing Night Watchman Clayton Potts, 74, in a holdup in Indiana last March. The department also said they had been charged with torturing Mr. and Mrs. O. W. Stover at Muncie, Ind., until they got \$2,000. Last December the department said, the pair was accused of shooting at Ohio State Policeman Carl Whipple after he confiscated two pistols from their automobile near Vienna.

Jackson was aided in the bank robbery, the department said, by Duval and Amos Eugene Ward. Ward had been arrested in Charleston.

Dr. Roberto M. Ortiz Becomes President Of Argentina Today

(International News Service)

BUENOS AIRES, Feb. 21.—The beginning of what a majority of Argentines feel will be a new era of democracy arrived today with Dr. Roberto M. Ortiz, a lawyer, in the office of president.

With six great United States army bombers "stealing the show," his inauguration also marked the midst of a period of unprecedented good will for the northern country.

Dr. Ortiz entered office backed by more than one million votes, an all-time record for Argentina.

In his inaugural speech he declared his intention of developing the "constructive program" of his predecessor, Augustin P. Justo, in financial, domestic, and foreign affairs.

### Born As Mother Dies Of Burns

SAVED BY CAESARIAN BIRTH AS MOTHER DIES

Born by a Caesarian operation as its mother lay dying of burns, this baby boy is held by a nurse in Valley hospital, Sewickley, Pa. The mother, Mrs. Anna Haus, 25, of nearby Coraopolis, Pa., became a "human torch" when her clothing was ignited by an explosion of floor wax which she was melting on the kitchen stove. Neighbors rushed her to the hospital, where she died five hours after smiling and touching her healthy new-born son.

### Levees Break In Arkansas

(International News Service)

LITTLE ROCK, Ark., Feb. 21.—Precipitating a critical situation, flooded waters forced new breaks in Arkansas levees today. Approximately 3,000 fled from their lowland homes to higher ground. At least 20 counties are affected.

Officials looked to the Mississippi river, chief offender in the past, to offset general disaster. The comparatively low stage of the Mississippi is drawing water off the main tributaries and slowing their rise, it was said.

Levee breaks were recorded in these counties: Faulkner, Jefferson, Clark, Pope, Independence, Jackson, Woodruff and Prairie.

### ITALY IS READY TO NEGOTIATE WITH BRITAIN

(International News Service)

ROME, Feb. 21.—Her arch-enemy in international relations out of the way, Italy was quick today to show a willingness to settle her long-standing quarrel with Great Britain.

Removal of Anthony Eden of the British foreign ministry marks the complete triumph of Premier Chamberlain of hastening peace with Italy as the first step towards pacification of Europe through a four-power pact with Italy, Britain, France and Germany, in the Italian view.

Such a four-power pact, successor to the dead Locarno pact and the idea of collective security under the League of Nations, would prevent war at least for a considerable number of years, Italians feel.

Italy hopes to gain from Britain in the conversations already opened in London today, recognition of her conquest in Abyssinia, and resumption of normal trade relations, so that Italy can secure a loan in London's financial markets.

COMPENSATION UNIT WORKING TOMORROW

Ordinarily a holiday, Washington's birthday, "Tuesday" will be "another working day" for the on-duty staff of the local office of the Pennsylvania Division of Unemployment Compensation and Employment Service in the Citizens Bank building, it was announced today.

"Too much work ahead" was how Joseph R. Hensley, compensation office head, explained it. "And claimants for unemployment compensation, continuing their claims, who usually report Tuesdays, should report tomorrow."

### Rumania Is New Fascist

(International News Service)

BUCHAREST, Rumania, Feb. 21.—Rumania was thoroughly Fascist today, with the reins in King Carol's hands through a new constitution which will be formally approved by the people in a well-regulated plebiscite later this week.

The constitution replaced the present parliament with a chamber of deputies and a senate whose members will represent occupations, not districts.

Carol's proclamation promised "equal rights to the minorities belonging to other races, but who have been settled for centuries on the soil of greater Rumania." By omission, he left no doubt that the campaign against Jews who entered Rumania after the World war will continue.

### Firm Stand By Czechoslovakia

(International News Service)

PRAGUE, Czechoslovakia, Feb. 21.—Czechoslovakia regarded as the next field for Nazi expansion, today indicated she would not even negotiate with Germany regarding autonomy for the 3,000,000 Germans mentioned in Adolf Hitler's speech yesterday.

Czechoslovakia "will yield to no coercion" as Austria did, semi-official quarters said.

If negotiations are Hitler's aim, they would be regarded as "infringement of Czechoslovakia's sovereignty, and therefore not acceptable."

### China Protests Germany's Action

(International News Service)

HANKOW, Feb. 21.—The Chinese foreign office today prepared a formal protest to the German government against Chancellor Adolf Hitler's recognition of Manchukuo.

The protest will say that Hitler's action is regretted "in view of Sino-German friendship."

### Hitler's Speech Causes Central Europe Crisis Asserts Knickerbocker

PARIS, Feb. 21.—Central Europe is dismayed today, Czechoslovakia is terrified, France is grimly resigned to the worst, and England has changed her foreign minister as the result of Adolf Hitler's Reichstag declaration and the preceding events which caused it to be the least conciliatory public speech he has made since he came into power.

The French are shaking under the blow of Anthony Eden's resignation, which is taken here to mean that

Premier Chamberlain has decided to abandon Czechoslovakia to Hitler's threat.

"When Germany was weak, she was obliged to acquiesce to the persecution of Germans on her frontiers. Now we will know how to defend German interests wherever they may be, and among those interests are those of German men on those frontiers who cannot obtain for themselves cultural and national liberty."

### Former Foreign Secretary Eden Assails Il Duce

Says Italy Failed To Lay Groundwork Essential For Lasting Peace

### SAYS PROMISES NOT MADE GOOD

Developments Of Day In European Situation Outlined In Brief

(International News Service)

Former Foreign Secretary Anthony Eden told a tense House of Commons today he had resigned because Italy failed to lay the groundwork of mutual respect essential for enduring peace.

In an unexpectedly vigorous address, Eden assailed Premier Mussolini for his anti-British propaganda and his failure to make good promises of withdrawal of Italian troops from Spain.

Other developments:

LONDON—As Eden spoke,

the British government pressed forward with its plans for an immediate peace agreement with Italy. Prime Minister Neville Chamberlain received from Ambassador Dino Grandi Italy's reply to the British proposal for withdrawal of volunteers from Spain.

PARIS—France, according to H. R. Knickerbocker, is faced with the dilemma of following Britain into peace talks with Italy and Germany or fulfilling her treaty obligations to Czechoslovakia in the face of threatened Nazi expansion in the Balkans.

BUCHAREST — Rumania went wholeheartedly into the Fascist fold under a new corporative constitution decreed by King Carol.

BERLIN — Hitler plunged into his drive to win complete autonomy for Germans in Austria and Czechoslovakia.

Eden Defends Action.

House of Commons, Westminster, London, Feb. 21.—Principles that his conscience forbade him to ignore compelled his resignation as foreign secretary, Anthony Eden told a deeply-moved House of Commons this afternoon.

The youthful Yorkshire statesman, who quit the cabinet in disgust with Prime Minister Neville Chamberlain over the latter's determination to seek immediate peace with Italy and Germany, told parliament that peace for Britain was foremost in his mind.

But, he said, peace to be enduring

It seems to me that Washington was not a politician, although I know he made the grade to quite a high position. But times were different then I guess and votes were not so high, for Washington you may recall would never tell a lie. Now if he were alive today and were a candidate, I wonder if he'd do the same if he were in debate. And when his people asked for things could he refuse to be, I wonder, and I wonder much, it's thirty-three and dry.

City Electrician J. Rex Hughes claims ownership to one of the most unusual plants to be found here—the sacred fire of India. The plant, at Hughes' home at 315 East North street, starts from a bulb about five inches in diameter. No water or soil is required to grow this fire. The bulb is placed in an open bowl. The fire when in bloom has a calyx and a long spike in the middle, and the color is dark red. From the bulb to the top of the spike it is now forty-five inches high. This fire grows as fast as six inches in one night. From the time the fire bulb forms its first shoot, it blooms in six weeks, and only once a year.

## SHENANGO OFFICERS, 333 HONOR WORTHY MATRON

Lovely in every detail, was the party given Friday evening, February 18, in the Elk's club rooms by the past matrons, officers and committee chairmen of Shenango Chapter, No. 333, Order of the Eastern Star, to honor Mrs. Julia Hoss, worthy matron.

Amidst a patriotic setting of the red, white and blue, the group sat down at the long banquet tables at 7:30 o'clock where they were served a banquet. Everything was carried out to the Nth degree in keeping with the theme of George Washington's birthday. A large crystal chandelier filled with choice red roses surrounded by red and white tapers, formed the attractive centerpiece. Individual crystal bowls, holding a single rose and combined with tapers extended to the ends of the tables, further carrying out the idea. Candies and tallies were also developed in the same theme.

In the contests featured afterwards, the following were awarded honor score prizes. They were: Marjorie Rhodes for contract bridge; Edna Crain for 500; Beatrice Q. Davy for puzzle feature.

Following the program, the guest of honor, Mrs. Hoss, was presented with a beautiful gift which conveyed the many good wishes of those assembled. She responded in a most gracious manner.

The committee in charge of arrangements composed: Charlotte Taylor, chairman, with Dorothy Young, assistant.

## WASHINGTON AT A GLANCE

## Buckley Has New Road Plan

Proposes Toll Roads Crossing Country For Benefit Of Motorists

## RAILROADS WOULD LOSE

Central Press  
Washington Bureau  
600 Times-Building Bldg.  
By CHARLES F. STEWART  
Central Press Columnist

WASHINGTON, Feb. 21.—If an industry could give a deep groan or a piercing shriek of despair, or both, that's what the railroad industry would have given upon the broadening of Senator Robert J. Buckley's scheme for a system of federal highway-constructed automobile superhighways, girdling the country north and south, east and west.

The railroads, as we know, are in dire financial straits; are imploring the Interstate Commerce Commission for authority to increase their passenger and freight passenger carrying charges 15 per cent to keep them out of bankruptcy—some of them are in receivers' hands already.

The roads' lamentations are not without justification. Doubtless their distress is due to their own mismanagement, or worse of late years. Nevertheless they obviously are genuinely and desperately pinched as of today. Chairman Burton K. Wheeler of a senate committee, which has been investigating their plight, says so. And Senator Wheeler is not a statesman to be overly charitable toward big corporations.

## Constipated?

There is no profit, he says, in discussing crookedness of two or three generations back; they are irrevocable. We face the present situation. And he adds that the threatened collapse of as huge an interest as railroading is not a possibility to be lightly weighed by the general public, regardless of the roads themselves.

## AUTOS VS. RAILROADS

Well, the development of automotive transportation is recognized as having thrown more than any other one thing, a well-nigh fatal crimp into railroad prosperity.

I have tried passenger travel by bus. It costs about half as much as travel by rail. But it isn't as comfortable. It is slower, too. If one's time is worth much it isn't necessarily an economy. Same way, certain classes of freight can't be as cheaply moved by auto as by rail, but other classes of it can be more cheaply moved by auto.

And the individual tourist? Alone, he can't afford to travel as much as a family. But if he has a wife and three children, he saves money by patronizing his personal auto. I know as important folk as members of congress who say so.

## THROUGH TOLL ROADS

The nub of this thing is that the rails have about as much of this automotive competition as they can stand.

Now comes Senator Buckley, with a proposition to speed up the automobile.

His plan is not fully developed as yet.

He is going to have, say, three toll roads across the continent, from north to south.

What this will do to railroading is obvious, even though proponents of the superhighway plan say that toll roads for trucks and buses would put them on a par with railroads.

## 50-YEAR PROGRAM

It will be at least a 50-year road building program.

It will be self-sustaining, as it goes along.

It will develop lines of settlement along the paths of the proposed roads.

Imagine a trip from New York City to San Francisco, along a highway marked by filling stations and roadside stands from ocean to ocean! Or similar routes from the Canada line to the Rio Grande or the Gulf!

## TARIFFS BY STATES?

In the meantime, imagine the soul between the states!

Senator Buckley doesn't appear to have thought of that.

Interstate tariffs are constitutionally barred; sure.

But, somehow, they are NOT barred.

It depends on whether you are shipping between inter or intra-state destinations.

Intra-states are as vicious as poison.

## Raw Throat?

Here's Quick Action!

Kill the cold germs that attack your throat and cause miserable colds. At the first sign of "raw" throat, gargle with Zonite.

Zonite is 8 times more active, by standard laboratory tests, than any other popular non-poisonous antiseptic. Kills all kinds of cold germs—no matter how deep they are in your throat.

Get Zonite at once. Gargle immediately—1 teaspoon Zonite to half glass water. Kill cold germs before they spread UP into sinuses or DOWN into bronchial tubes. You'll feel relief after the first gargle with Zonite.

## Insurance Lottery Racket Results In Loss To Thousands

Many People Drop Good Insurance Policies To Take Up With Fake Scheme

According to Owen B. Hunt, Insurance Commissioner of Pennsylvania, a new racket has been uncovered in the state, which is a combination lottery and insurance racket, which has already resulted in huge losses to residents of the state, and which is a pure swindle.

By purchasing a ticket, according to the promoters of this scheme, one is entitled to health, accident and death benefits, as well as a chance to share in cash prizes up to \$8,000, awarded periodically.

Tens of thousands of Pennsylvania citizens have been misled by persons selling these tickets, Insurance Commissioner Hunt states. Many cases have been discovered by the department where people dropped good policies in recognized insurance companies in exchange for these tickets, and the tragedy in many of these cases is that these people are either too old or their health is such that they cannot be reinsured by legitimate companies.

To date, thirty arrests have been made in the state, most of them in the eastern part of the state. The lottery seems to have been operated out of Easton and Wilkes-Barre, Mr. Hunt states. Names of prize winners were found to be non-existent persons.

New Castle people are warned not to participate in the swindle, and if approached to report these selling tickets to police authorities.

# "ARE CAMELS REALLY DIFFERENT FROM OTHER CIGARETTES?"... a question of interest to every smoker

"I've never been very fussy about cigarettes myself. Do you think that Camels are really as different as some people say, Bill?"

"You bet they are different, John! A fellow in any work as hard as selling has to figure a lot of angles on his smoking, such as how it agrees with him. And just notice how many salesmen smoke Camels. I changed to Camels—smoked 'em steadily—and I found a distinct difference in the way I enjoyed all-day smoking. Camels agree with me!"

A FRIEND DROPS IN to see how Bill is coming with his model racing sloop. Daly passes the Camels and answers a natural question about smoking. "That all cigarettes are alike talk doesn't square with my experience. Believe me, steady smoking is the test that shows Camels in a class by themselves."

## Battery B Record In War Is Brilliant

In the present campaign for \$1500 for a monument to mark Battery B's position on the first day of fighting at Gettysburg, many people have asked that some information be given as to the participation of Battery B in the Civil War.  
The record of the battery, Lawrence County's own, in the war was a brilliant one. On April 21, 1861, following the shelling of Fort Sumter, a meeting was called at Mount Jackson where plans were rapidly drawn for the formation of the Mount Jackson Guards. Lt. Col. H. T. Danforth who had served with the U. S. forces in the Mexican War was chosen to head the guards as the captain.  
On June 8, 1861, the command entered the state service and on June 28 was mustered in at Camp Wright near Pittsburgh. From there they went to Camp Curtin near Harrisburg and from there to the Arsenal in Washington, where the battery was equipped. They were trained at Camp Tennyson, Maryland and on December 20, 1861, the battery saw

its first action at Drainesville where the Army of the Potomac won its first victory.  
On June 26, 1862 Battery B occupied the Seven Days battles at Mechanicsville, firing the first Union shot. Following that came Gaines Mill, New Market Cross Roads, McLean Hill, Gettysburg, Groveton, and Second Bull Run. At South Mountain the battery was attached to General Joe Hooker's first corps. Fredericksburg provided bitter fighting for Battery B, and later at Fitzhugh's Crossing, April 30, 1863, the battery saw more action. In June 1863 under the command of Captain Cooper, after having been engaged at Chancellorsville they started north for Harrisburg.  
On the morning of July 1 the force of General Meade and General Lee clashed at Gettysburg. All day long Battery B was in the thick of the fight, losing three men and getting nine others wounded. It was this day's fighting is to be commemorated by the monument.  
All during the four days fighting

# Both Parties May Have Wide Open Primary Elections

## State Situation Is Quite Unique

Democratic Leaders Await "Clarification" Statement of Senator Guffy

EXPECT KENNEDY WILL ENTER RACE

By TONY S. SMITH  
International News Service Staff Correspondent

HARRISBURG, Feb. 21.—Pennsylvania's two major political parties were apparently headed for wide open primary elections today.

In a situation considered unique in the state's political history, both Republican and Democratic organizations faced bitter opposition for the respective gubernatorial nominations on May 17.

With at least one more independent candidate expected before the week is out, the Democratic state squabble remained explosive as party leaders anxiously awaited U. S. Sen. Joseph P. Guffy's promised "clarification" statement today.

In Republican circles, leaders continued to take sides for and against former Gov. Gifford Pinchot and Superior Court Judge Arthur H. Jants, both announced candidates for governor. Further complicating the GOP picture was State Sen. G. Mason Owell's threatened independent candidacy for the U. S. senate seat.

G. O. P. Open Primary Mandatory.

Under its rules, the Democratic state committee must endorse a party slate before the primary. On the other hand, the Republican committee's rules make an "open" primary mandatory by not permitting official endorsement of a state ticket. The Democratic body meets here Friday.

And despite predictions that both may abide by these rules, observers believed neither could prevent "slam bang" battles for possession of the gubernatorial nominations.

The Democratic state committee was expected to endorse Allegheny County Solicitor Charles Alvin Jones for the party's gubernatorial nomination. But strong indications pointed to a field of independent candidates which would leave the primary "closed and controlled" in theory only.

Two Are Entered.

Already Attorney General Charles J. Margiotti has announced himself as an independent candidate for governor on the Democratic ticket and Gov. George H. Earle has entered the U. S. senate race without waiting for the action of the state committee.

And the independent CIO candidacy of Lieut. Gov. Thomas Ken-

ney, which has been demanded by John L. Lewis, president of the United Mine Workers union, was expected momentarily. Snubbed by Democratic leaders who on Friday stated a state ticket which contained no labor representative, Lewis in Washington practically placed Kennedy in the field. He said:

"Tom Kennedy is as good as nominated by the labor vote alone. He's far and away the winner."

Guffy Is Enigma.

Some Democrats believed Guffy would come out wholeheartedly for the Jones candidacy, while others were of the opinion he may advocate an open primary and announce his own gubernatorial candidacy.

Apparently well-founded reports attendant to a turbulent breakfast conference at the executive mansion here last Friday were that Guffy bitterly opposed Jones but later agreed to support him. Since then, Guffy followers claim he merely promised to back "whoever is nominated."

Many observers believed the breakfast row was genuine, others disagreed the guess it may have been a "sham" staged for the benefit of Guffy's opponents who were of the opinion Jones was the senator's personal choice.

Party leaders also watched the activities of J. David Stern, Philadelphia publisher whose insistence that Dr. Luther A. Hart, former secretary of banking, be slated for governor was disregarded by organization leaders. Reports that he may join forces with Lewis and Kennedy or Guffy in opposing the organization's slate were unconfirmable.

## New Castle Man Awaits Sentence On Murder Charge

MEADVILLE, Pa., Feb. 21.—Apparently undisturbed by the prospect of a prison term up to 20 years, James Wals, negro, 32, New Castle, smoked a cigar in the Crawford county jail and calmly awaited sentence.

Wals escaped the death penalty through a second degree murder verdict returned to Judge O. Clark Kent Saturday by a jury of 11 men and one woman. They took six hours for the deliberation.

District Attorney Herbert Mook had sought the death penalty, insisting Wals was guilty of premeditated murder when Wals fired pistol shots in a local poolroom on the night of November 3. A shot killed Leonard Strickland, 28.

Defense Counsel John Kent and George Harco asserted Wals was "unconscious" when he fired the shots. They introduced evidence Wals had been severely beaten and knocked out in a brawl preceding the slaying.

## Ask Improvement Near Millburn

MERCER, Pa., Feb. 21.—Improvement of a state highway route 133 from Millburn to Blacktown has been requested by the citizens of Springfield township in petitions circulated by township supervisors and presented to the State Highway Department.

The petition requests construction of a stone base road approximately four miles long. The road, traveled regularly by mail carriers, bread trucks and paper trucks, has been in an impassable condition for several weeks, the petition states. Construction on a stone base improvement was begun by CWA several years ago at the Blacktown end, but the project was abandoned and never resumed.

## Records For 1937 Show Decrease In Crime Here

By ARTHUR C. WIMER  
(Special Washington Correspondent, New Castle News)

WASHINGTON, D. C., Feb. 21.—New Castle was one of the few cities of the country which witnessed a decline in crime last year, according to figures collected by J. Edgar Hoover, chief of Uncle Sam's G-men.

Mr. Hoover gathered reports from police departments of cities with 25,000 and more residents. Criminal offenses reported by the police were listed under seven headings: murder, robbery, aggravated assault, burglary, larceny under \$50, larceny over \$50, and auto theft. In the nation's cities as a group, increases occurred in 1937 in all classes of offenses save aggravated assault. In New Castle, on the other hand, increases were recorded in only three of the seven classifications and declines were recorded for the other four.

In New Castle, according to the G-men, robbery offenses dropped from 41 to 20, aggravated assaults from six to four, and thefts under \$50 from 185 to 164 in number.

Auto thefts in the city increased in number from 117 in 1936 to 133 in 1937, but of the \$50 increase from six to 29, and cases of burglary increased from 85 to 104. A comparison of New Castle figures with statistics for other cities discloses that from a viewpoint of crime at large the Lawrence county center had a much more enviable record than most municipalities.

In the case of most towns, the return of prosperity last year brought an upward surge in criminal offenses. This, however, was not true of New Castle. Federal officials, in making public these figures, did not offer any explanation of the improved conditions in New Castle.

## Louis E. Graham Out For Congress

Beaver County Attorney To Seek Republican Nomination At Primary

Attorney Louis E. Graham of Beaver, Pa., today announced his candidacy for the Republican nomination for congress from the 26th district. His statement of announcement follows:

"In presenting my candidacy on the Republican ticket for Representative in Congress, at the coming primary election on May 17th, it is my desire to make the following statement to the voters of the Twenty-Sixth Congressional District composed of the counties of Beaver, Lawrence and Butler:

The Present Situation.

In the light of the successive defeats of the Republican party in recent years it is my sincere belief that the party should be regenerated and reorganized on a more liberal and progressive front. In keeping with the foregoing, it is my wish to be identified as a liberal progressive in politics. The party cannot succeed half liberal and half reactionary. There is a true conservatism as opposed to extreme radicalism, and in this spirit the party can advance and shape its principles to the changing social, economic and industrial conditions of the time.

The New Deal.

While there can be no quarrel with certain social objectives of the so called "New Deal," it is my firm and unalterable conviction that there should be a sound constructive resistance offered to the arbitrary and coercive methods of the present administration in the forced enactment of many laws; the surrender of the constitutional power of congress and its delegation of its legislative power to the executive; and the attempt to intimidate the Supreme Court of the United States, the bulwark of the liberties of America.

The Powers and Functions of Congress.

Congress and congress alone, has the power and authority to fix the policies of government and appropriate the money to make these policies effective. Under the constitution the powers and functions of the congress, the executive and the judiciary are fixed and determined. Each should keep within the sphere of its constitutional power, to legislate, to execute and enforce the laws, and to decide their validity. This was the true concept of the founders of the American system of government, and should be followed.

No Panaceas.

My platform offers no panacea, or "cure all" for all the ills of America—agricultural, industrial, financial, economic and social. America's

problems must be solved by American methods. It is my belief that congress should come back to its constitutional function, reclaim its powers and face its responsibilities, and resist to the utmost every selfish attempt made by the executive or pressure groups to dictate its policies and control its legislation.

Political Causes of Present Depression.

It is my belief that the causes of the present depression are more political than economic and are the result of hasty improvised and unsound legislation, both enacted and pending. These are, in the main, responsible for the present situation.

Remedies.

Much of this legislation should be either repealed outright or amended to cure the faults already generally admitted. Among these are the undivided profits tax; and the Wagner Labor Act. Every good American citizen recognizes labor's inherent right to organize for their own benefit and protection. The administration of relief should be returned to the cities and states. No true statesman encourages the citizens of a country to lean upon the government for their living. The principle of crop-control subsidies to farmers is economically and socially unsound and a better method should be devised. This alone is creating in Washington further additions to the vast bureaucracy already existing there.

The Social Security Act as enacted is unworkable and should be thoroughly and scientifically re-drafted. These are the chief issues of the present moment—relief, labor legislation, crop-control and social security. These are not all the ills, but all the remedies, but they are illustrative of our present situation.

Pledge.

If nominated and elected it is my purpose to serve the interests of the nation and this district to the best of my ability. My conception of a congressman is to serve his nation first, his district afterwards. It is my intention to conduct my campaign without any connection with any other candidate for any other office.

If this statement appeals to you, your vote and influence will be greatly appreciated by myself.

Respectfully submitted,

LOUIS E. GRAHAM.

Mr. Graham, born and reared within the district, is a life long resident of the same, having lived within the confines of the district all his life.

Graduating from Washington and Jefferson college he was admitted successively to the Bars of the courts of Beaver county, the Superior and Supreme Courts of Pennsylvania, and the District, Circuit and Supreme Courts of the United States of America.

He has served successively as district attorney of Beaver county for three terms, deputy attorney general of Pennsylvania, United States attorney for the western district of Pennsylvania and special assistant to the attorney general of the United States. He has thus had a county, a state and a federal experience.

He has been a Republican from his earliest manhood and has consistently supported the party and its principles. He is classed as a liberal, progressive member of the party. In every campaign for years he has spoken for the party and its candidates.

As a member of the Historical Society of Western Pennsylvania he has contributed articles to the society magazine and spoken at its meetings on historical subjects.

He is the author of a number of laws upon the statute books of Pennsylvania.

By reason of experience, training and knowledge of the needs of the district Mr. Graham is well qualified to represent this district in congress.

At a meeting of Beaver county Republicans held February 2nd, Mr. Graham was unanimously endorsed as Beaver county's choice for the office.

## New Castle-Ambridge To Play Tuesday Night

### Elimination Game In Section Three

Winner Of Ambridge-New Castle Game Will Play Aliquippa Saturday At Pittsburgh

Locals Hold Two Victories Over Ambridge High This Year, In Fine Shape

New Castle high school basketball team will go to New Brighton Tuesday night to meet Ambridge high in the first of a two-game elimination series to break the three-way deadlock in section three. The winner of the game at the Daves gym in the valley will meet Aliquippa high at the Pitt stadium on Saturday night. The game Tuesday starts at eight o'clock. New Castle has defeated Ambridge high twice this year, at Ambridge, 28 to 20, and at New Castle, 32 to 20, in standard hot battles. The game tomorrow night will no doubt be another fast and furious affair.

The "Bridgers" practically kicked the championship into the waste-basket at Aliquippa last Friday night by walking off the court with the Aliquippa ahead, 25 to 25, in the extra period.

**New Castle Ready**

Head Coach Phil Bredenbaugh will send the New Castle boys through a tough workout this afternoon at Washington high floor in preparation for the game at New Brighton. The New Castle team is in fine shape for the title battle. Kozala and Kozala will be marked men in the game. They are two of the best forwards in the section. Tickets for the game will be on sale today at the Sporting Goods Store and also at senior high school. The tickets to everybody will sell at 40 cents if bought here and 50 cents if you wait and get them at the rate in New Brighton. The same prices will prevail if New Castle plays at the Pitt stadium Saturday night.

If the New Castle boys play the same kind of basketball that they did against Butler high here, the valleys are going to find the going mighty rough. Ambridge had a lot harder game with Aliquippa than New Castle did with Butler.

**Expert Big Crowd**

Cochran, Moe Rubenstein hopes to have his "Bridgers" at the top of condition and wants so badly to stone for those two previous defeats this year. Ziolkowski, Sweeney and Hoeltjes will be the Amoridge men.

### Titans To Battle Sweeney's Team

Youngstown College Five To Be Westminster Opponents This Evening

(Special To The News) NEW WILMINGTON, Feb. 21.—Sparked with 10 victories, which include wins over Villanova's Wildcats, Pittsburgh Panthers, W. and J.'s Prexies and Waynesburg's Yellow Jackets, Coach Washbaugh's towering Westminster Titans enter their home stretch tonight against a team coached by "one of the home-town boys" Coach Ray Sweeney's Youngstown College Penguins in the Titan gym at 8:15.

Playing practically the same team which last year placed sixth in the nation, due largely to a win over George Washington's Colonials, the Blue and White have an edge in experience over the Penguins. But a team good enough to trip up Akron and Geneva, both with early season wins over the Titans, makes the Penguins dangerous opposition.

Sixty Escobar regained banishment title by outpointing Harry Jeffra of Baltimore in 15-round bout at San Juan, Puerto Rico.

### Titans Win Close Game From Slippery Rock

(Special To The News) NEW WILMINGTON, Pa., Feb. 21.—The Blue and White Titans of Westminster made it eleven wins out of fifteen starts, as Andy Demo, Titan high-scorer, tossed in point number 230 for the season, and won a close game with Slippery Rock State Teachers college here Saturday night, 55-53.

Although the Titans lead throughout the first half, the score was tied up twice in the second half, at 30-30 and, with a minute to go, 52-52. Demo's hook shot and free-throw in the final 30 seconds of play gave the Titans the necessary margin to take their eleventh win.

Close on Demo's heels in scoring came Miller with 15 points on 7 goals and a free toss; and Gilliland on 6 field-goals. For the Rockets, four players broke into the ten-or-better column as Barnes scored 13 for high-man, closely followed by Van Horn with 14, Nahas with 12, and Lytle with 10 markers.

Backus, lanky Blue & White center, with three fouls on him was taken out of the game before the half, and remained out until sent in during the final three minutes of play. His ball-handling and defensive strength added materially in staving off a last-minute Rocket attack.

Throughout the second half, the game saw-sawed back and forth, with the Rockets holding only temporary advantages.

Miller, Titan guard, scored the first five points for Westminster on one in front, a dribble under, and a free one as the Blue and White went into an early lead 5-0. While Miller was scoring on a rebound and Demo added three on a basket and a free one Nahas registered from the deep side and Demo took a charity toss to give the Titans a 10-2 lead.

The game lagged momentarily as both teams went in for scoring and fought their defense, set-up shots, caused from both the Rockets and the Titans. Miller scored from the deep side, Gilliland hooked one under, and Demo took one in front, while Barnes registered twice and Lytle once, to make it 16-9 for the Titans.

The Rockets crept closer as Nahas and Lytle added three on free-tosses, and followed by baskets from Nahas and Van Horn inside the Titan rim. Gilliland scored from deep center, and Demo registered two free-throws. With the score 20-16 for the Blue and White, Demo and Miller took set-ups under the basket, but Lytle and Nahas retaliated.

Nahas shot two and Krivosh scored under the basket as the first half ended 28-23.

### Second Half Opens

As the second half opened, Krivosh scored on a rebound and Demo on a hook to take a nine-point lead 32-23, but a flurry of Rocket shots followed as Engelson and Nahas scored from the center and Lytle and Barnes under to give the Blue and White a one-point advantage 32-31.

Back and forth, the scoring continued as Miller, Gilliland, and Demo registered for the Titans; and Barnes twice and Van Horn for Slippery Rock. With the score 42-41 in favor of the Washbaugh men, Lytle shot from the deep side to give the Rockets their first lead in the game, the Rockets a point lead, but Demo tossed in three points and the game ended the score stood 55-53.

(International News Service) POMPTON LAKES, N. J., Feb. 21.—Joe Louis was to go through a final workout at his training camp here today in preparation for his title bout with Nathan Mann in New York Wednesday.

Mann, who has been training at Summit, N. J., is through working and will rest today and tomorrow.

# Terry Picks His Giants To Repeat

Thinks That New York Giants Have Necessary Strength To Win Again

Depends On Hubbell And Leiber Only Two Question Marks For 1935

By PAT ROBINSON  
International News Service Sports Editor

NEW YORK, Feb. 21.—Bill Terry already has picked his Giants to win another National League pennant.

Should Terry's forecast come true, it will be a second consecutive year for Terry—who has no illusions about his own team or any other—must realize his team would be lucky to finish in the first division if they were in the American league.

Terry is going to stand pat on the team that won for him. Therefore, in predicting the Giants will repeat, he must believe the Cubs, Cardinals and Braves have added no strength, for if they had, any one of them would come down in front.

Let's give the Giants the once over. In the outfield we find Joe Mauer, Hank Leiber and Jimmie Foxx. Mauer and Leiber can be depended on to field well and hit over 300 but Leiber is a big question mark.

Let's give the Giants the once over. In the outfield we find Joe Mauer, Hank Leiber and Jimmie Foxx. Mauer and Leiber can be depended on to field well and hit over 300 but Leiber is a big question mark.

There is nothing the matter with the infield. McCarthy, Whitehead, Bartel and Ott can give a pretty fair imitation of a stone wall. Bartel and Whitehead should do as well as last year when they hit, respectively, .306 and .335, and Ott should continue his .25 which is below his normal speed. McCarthy hit .275 which is practically nothing for a first baseman but he may improve a little on that.

Terry made a ten-strike when he shifted Ott to third base where he quickly proved himself the top man in the league. He should be better than over this time.

Danning has sustained a blow behind the plate, and catching every day, may add some power to the offense. How well he will handle the pitchers over a season's play remains to be seen but rating him off past performances he should do all right.

Unless Terry makes a late trade for Schumacher the starting pitcher will be Schumacher. Melton Hubbell and Gumbert and Gumbert underwent a spinal operation and won't be ready until June if they can.

Hubbell must repeat or the Giants are sunk. For the sake of argument, let's concede him another 22 victories and Melton the 20 he had last year. But Schumacher and Gumbert, off their work last season, hardly figure as pennant winning pitchers.

Bank On Rookies.

Behind these we have Baker, who should one day be a great pitcher; Fohrman and Vandenberg, both up from Baltimore. One of these may be ready to make the grade.

All this indicates the Giants of several question marks. Will Ott, Leiber, McCarthy and Danning improve their hitting? Can Castle come through again? Can Castle come through again? Will one of the rookies pitchers come through? If they can, Terry's forecast may come true. The writer hesitates to disagree with the optimistic Mr. Terry but he does not believe the Giants can repeat.

Ceremony Performed Saturday Afternoon In Magyar Presbyterian Church

Andor Huserlitz, pastor of the church, performed the ceremony in the presence of a wide circle of friends and relatives of the couple.

Traditional white satin fashioned in the prevailing mode with a slight train and full length veil and an arm cluster of calla lilies was chosen by the bride for her wedding. Her sister, Miss Rosa Pocza was maid of honor and she was becomingly attired in green satin with her bouquet of roses.

Joseph Huserlitz, brother of the bridegroom, served as best man.

The bride had several other attendants including five bridesmaids and the ushers were friends of the bridegroom.

At 6 o'clock, a delicious wedding dinner was served at the church by the various women of the congregation. Covers were arranged for 200 guests including friends from Cleveland, Butler, New Castle, Beaver Falls and other towns. A large tiered wedding cake centered the bride's table.

## Randolph Post To Hear Address By J. K. Stone

Well Known Beaver County Attorney To Speak On "National Defense"

ELLWOOD CITY, Feb. 21.—In keeping with the National Defense month being observed by the American Legion post members of the J. Wilbur Randolph post of this city have arranged a special program for tonight's meeting to be held in the Legion rooms, in Sixth street, which promises to be of special interest to all legionnaires.

A special speaker, Attorney J. K. Stone, of Beaver, has been secured for the occasion. Attorney Stone is a splendid and able speaker. He is a past commander of the Beaver post organization and was a lieutenant in the World war and has been very active in all legion work. He has written various magazine articles and two books on his war experiences.

The "hike" left Shelby club house at 5:15 a. m. and went up Slippery Rock creek to the shooting range of the Ellwood City Rifle club. There they found a nice pile of field stone and some clay which was making for a wonderful outdoor fireplace.

When the fireplace was finished and a good hot fire going, it was time to get dinner so Belmont Dow passed first class cooking and Bill Weigle, Ken, "Dutch" Blewett and Bill Thielmann demonstrated their ability to "chiff" and passed the second class cooking test. Bill Thielmann then proved his knowledge of the use of knife and axe and passed those tests.

About that time three more Shelby Scouts arrived on the scene, making a total of twenty on the "hike," and they picked sides for a grand game of capture the flag.

Then back to Shelby at 5 p. m. and a show of hand vote gave 100 percent approval for another "hike" to be held next Saturday, February 22.

## Big Upset In Shelby Games Saturday Night

Office Tops Hot Finish And Cold Finish Defeats Inspection In Close Games

ELLWOOD CITY, Feb. 21.—Shelby basketball fans were treated to the two most interesting and exciting games of the season on Saturday night when the Hot Finish was topped by the Office 48 to 44 and the Inspection bowed to the Cold Finish 30 to 29 in an extra period game.

The Hot Finish-Office tilt was close from the second period till the very finish. Zapadka of the Office kept his team in the game the first half by making 11 of their 24 points, while Rebeck of the Hot Finish made 10 points to keep victory in sight for his team.

In the third quarter the Hot Finish pulled ahead with Rebeck and Shuler doing the scoring and the score at the end of the third period was 28 to 25 for the losers. Then in the last quarter Patterson and Tomme, both of the Office, began to pour in baskets from all angles. Patterson was especially effective from long range.

The Hot Finish was handicapped by the absence of John Ursu, one of its finest players, who was playing in Indianapolis, Ind., with the Ellwood Rourmansians.

With one minute to go the Inspection and Cold Finish were tied at 24-24. With seconds left to play Hazon made a long shot for the Inspection and Tommaro of Cold Finish countered with a long shot to tie the game at 26-26.

An extra period of five minutes was necessary. Tammaro made a long shot and Gottuso under the cold basket to give the Cold Finish a 4-point lead. With two minutes left, the Cold Finish attempted to "freeze" the ball. Fredoff of the Inspection was awarded a free throw and then Bollinger added a long shot and the game ended with the Cold Finish out in front by a score of 30 to 29.

Besides playing a great offensive game, Gottuso of the Cold Finish was spectacular on the defense. Both the defeated teams are tied for the championship of the second round.

In addition to Gottuso, Rebeck of the Hot Finish always a consistent player, was high scorer of the game with a total of 19 points. Shuler of the same team had 12 points and Zapadka and Patterson of the Office had 15 and 13 points, respectively.

The regular Saturday evening games followed the games. Games scheduled for Wednesday are Hot Draw versus Cold Finish and Mechanical versus Inspection.

The summary:

Inspection	Fg	P	Tp
Fredoff f	2	3	4
Lattaro f	3	1	7
Shuler c	0	0	0
Hazon c	3	1	7
Januzzi g	0	0	

## Names Puzzle News Writers

McIntyre Compiled A Few  
Which Brought Wrinkles  
To Brow Of Reporters

DANCER BACK  
WITH FORTUNE

One of the last of O. O. McIntyre's columns, written for today, shortly before his death.

NEW YORK—Daily: A grand letter from Elsie Robinson, the lady journalist, as thoughtful a friend as a fellow can have. And a note from Ruth Hughes, down in Virginia, and taking over the phone to Harry Burton about all the anecdotes for a sick world.

So came news of the Bugs Baers who have been kidnapping through the mid-west, where The Bugs made 26 speeches.

Theodore Dreiser never muffled a home-cooked chicken dinner. Came a radio repair man who showed me checks totaling \$380 for magazine stories sold during a month.

There is a batch of names newspapermen try to write correctly but somewhere between the typewriter and printed page they come a cropper. It's well-nigh impossible to land Russell Crouse with one I get the hyphen between the first two names of Norman-Bel Geddes or put the two a's in the last name of Margaret Sullivan. Then, of course, the two Katherine—Hepburn and Cornell—who insist on first names carrying the two a's. F. P. A. used to fill much columnar space reproducing the various

spellings of Reinhold Weirumath, the singer, when he was on tour. My own pet name stumbler is Jules Glanzer's last one.

With the Ringling family in context of the circus again, the best job falls to John Ringling North, hand-tutored under the Ringling chief-tan known and beloved under the big tops as "Mister Jawn". He has much of the shyness and tactiturnity of John Ringling and circus employees swear by him. Superstitious show folk believe thoroughly that an important death among them is followed by two more, and point to the three theory in the passing of Lillian Leitzel, John Ringling and Dexter Fellows.

Leonora Hughes comes back from Argentina for the first time in years, one of the wealthiest widows in South America. Her young husband was killed in a motor boat accident two years ago, leaving his fortune to her. Miss Hughes was a top-notch in the ballroom dancing figure and for a time was the partner of Maurice, after he and Florence Walton dissolved their partnership. When she married the Argentine in St. Patrick's Cathedral, Maurice jumped up during the services and rushed to the street, sobbing. She was a Brooklyn girl.

Orson Welles continues a wonder kiddle of the theater at 23. His production of Julius Caesar in modern dress with practically no scenery was a seasonal triumph—produced on the proverbial shoestring. Welles' upbringing may offer a side-light to parents in problems of junior behaviorism. In knee pants he began to travel extensively with his father to all parts of the world. Treated always as a grown-up, he went to bed when he pleased, never at the children's dining room and was constantly drawn into conversation with his elders.

Dale Carnegie is out front and riding hard as the biggest money-maker among the literateurs for 1937. His book on how to win people will alone bring up a quarter million in royalties and second series rights. His school of public speaking is the most profitable in the world and his newspaper column is taking on. To say nothing of his radio and lecture profits. And no one is quite so bewildered as he. Unless it is his hooters.

Bagatelles: F. P. A., who so long emulated Samuel Pepps in type, was recently stricken with a kidney stone, just as Pepps was. The Duke of Windsor slows up his smoking by nibbling old-fashioned stick licorice. Theodore Dreiser is reputedly planning a ponderous volume dealing with his sum-up of life and its meaning. Henry Wallace is the most widely hissed of the New Dealers at the news reels.

Chronic note: He was a study in brown, resplendent in the morning (flow up Park avenue. Brown overcoat, oxford, hat, etc. A disheveled reveler in a taxi leaned out in passing to moan: "Buddy, I have a swell brown taste to go with your outfit!"

## West Washington Street Man Has Unique Hobby

William Ayers, of West Washington street, has an unique hobby. He models figures of the imaginary funny paper characters from plaster of paris, shelves them, and paints them in gay colors in his spare time. The work is carried on in a regular work shop in the basement of his home. He has worked out many original designs and employs some obtained from acquaintances.

The thing which he does first is to cut out the design from hard clay with the knife-like instrument that he possesses; this is the most difficult and incidentally the part that requires the most time. Next, he mixes plaster of paris, or hydrocal, and when it is set to a certain degree and preciseness he pours it over the set mold, or cut form, and allows it to dry. These types are three quarter lengths, faces and shoulders, or just bust views. Along the same thought he uses another compound, namely liquid rubber with nitrogen basis. He pours this over the form, as he does the hydrocal.

For a solid model he makes a cast of four different sections in order to be able to pry the hydrocal out when it has dried. This procedure of letting the material remain in the mold until it is dry requires about on the average of thirty minutes. After coating these with shellac and having administered a clever

paint job, Mr. Ayers is finished in surprisingly short time.

These figures range from Popeye, Whimpy, Olive Oyl, Sweetpea, Spark Plug, and Barney Google to Jim Gump and Alamy. There are no fine molds of different types of ships and artistic arrangements of flowers. Some of these are set into ash trays and other convenient holders. The paint used are lacquer ones as these tend to dry more rapidly.

When asked where he secured this idea, he stated that formerly he had worked in the local pottery and being very fond of the models, as he had never seen any kind of this work before, he became interested and inquisitive. The knowledge of chemicals so intrigued him that he made an intense study of chemistry, schooling himself by reading many and various books. This interest is just as great at the present time as it was then and every new material that he purchases, he analyzes. His most treasured possession is the book "Henty's Thousand Recipes," which contains the directions for making varied chemical materials.

This clever and worthwhile hobby not only affords intrinsic value to Mr. Ayers by increasing his education along the line of chemistry, but it also holds the intense interest of his friends and neighbors, who watch him work.

whole. Any normal person can see that war is not worth the billions of dollars that it costs. And besides that, the country is liable for I may easily say sure to experience another great depression if there are enough people left to be depressed. It seems to me, therefore, that our United States would do well to sacrifice a little honor and save a million, or probably many million lives.

Therefore, I think that it is the present duty of us all to do our parts in helping to avert another great mistake; this is possible through the newspapers or through one of the many peace organizations that have sprung up all over that country in response to the need. I hope that anyone who has foresight enough to understand what I mean will take immediate action in the right direction.

As a young citizen of New Castle and a subscriber to your paper I would like to offer the future generation's views on the present international situation. The following article is a composite of the stands taken by the boys here at preparatory school, and I believe that it expresses fairly and well the opinion of the American youth.

I hope that you will find a place for it in a future issue of your paper.

Yours sincerely,

Youth Speaks  
The prime problem that presents itself to the world today is war. It would seem that the world should have learned its lesson during those terrible days twenty years ago; but no—here we are today faced with the same old and ever recurring conflict, which inevitably lead to the violent physical form of combat—war.

As a fair representative of the American youth, I can assure anyone who is interested that death and injury, coupled with suffering and loss are the things that the young people of today dread most to think of. We have our whole lives ahead of us and it is rather unpleasant to realize that if our country goes to war one out of every three will be killed or go through life horribly maimed. If the next war is as great as the experts predict, that number will easily be raised to two out of three.

So far I have spoken only of the personal side; still there is the problem confronting the nation as a

whole. Any normal person can see that war is not worth the billions of dollars that it costs. And besides that, the country is liable for I may easily say sure to experience another great depression if there are enough people left to be depressed. Everett R. Gillespie to Walter J. McCormick, 4th ward \$1.

One of the largest personal damage suits to be filed in Lawrence county in years, perhaps the largest, was filed Saturday when Julia E. White of New Castle filed for \$129,800 against the Harmony Short Line Motor Company, a bus company operating between Pittsburgh and Erie. The suit was the first filed by the newest law firm, Chambers and Chambers, composed of former Judge James A. Chambers and his son James E. Chambers. Attorney Robert M. White is also in the case for the plaintiff.

The suit grows out of a collision at Bobby's Corners, near Farrell, on September 28, 1937. Ralph J. White Jr., a gas station proprietor of New Castle had left his place of business on a trip to Farrell in an Austin coupe.

At Bobby's Corners as he turned in on the Farrell Road, a Harmony bus came down the grade west of the corners and without stopping at the intersection, it is claimed, crashed into the car in which White and several small boys were riding. White was killed almost instantly. The suit sets out that White was 26 years of age, married, and the

## Getting Up Nights Caused By Kidney Germs

Are you worried and annoyed by getting up nights? If so, you should know that the cause may be irritating germs in the kidneys or bladder, which may also cause other distressing symptoms such as nervousness, backache, swollen joints, backache, dizziness, frequent headaches, putty eyes, burning passages, loss of appetite and energy, so that you feel no more joy in life. Ordinary medicine can't help much because they don't combat such germs. The Doctor's formula Gylax starts fighting kidney germs in 3 hours, checks pain, stimulates and tones the kidneys and bladder. Users often feel younger, stronger and full of energy. A day's use must prove entirely satisfactory in 1 week and be exactly the medicine you need or money back guaranteed. The guarantee is in Gylax. REALTY TRANSFERS  
Everett R. Gillespie to Walter J. McCormick, 4th ward \$1.

One of the largest personal damage suits to be filed in Lawrence county in years, perhaps the largest, was filed Saturday when Julia E. White of New Castle filed for \$129,800 against the Harmony Short Line Motor Company, a bus company operating between Pittsburgh and Erie. The suit was the first filed by the newest law firm, Chambers and Chambers, composed of former Judge James A. Chambers and his son James E. Chambers. Attorney Robert M. White is also in the case for the plaintiff.

The suit grows out of a collision at Bobby's Corners, near Farrell, on September 28, 1937. Ralph J. White Jr., a gas station proprietor of New Castle had left his place of business on a trip to Farrell in an Austin coupe.

At Bobby's Corners as he turned in on the Farrell Road, a Harmony bus came down the grade west of the corners and without stopping at the intersection, it is claimed, crashed into the car in which White and several small boys were riding. White was killed almost instantly. The suit sets out that White was 26 years of age, married, and the

compensation for White's expectancy of working life, 43 years at \$3000 per year asked as damages. In addition the suit asks for \$500 for funeral expenses and \$300 the value of the car which was wrecked. The case is listed for the March term.

Damages in the amount of \$10,000 are asked by Charles T. Couch and his wife Evelyn Couch in a suit filed Saturday in the office of Prothonotary and Clerk of Courts John

A. Edgar. The suit is directed against Harold E. Armstrong. It is alleged that at one o'clock on the morning of March 13, 1937, Mr. and Mrs. Couch were riding in the car of Jean Carrier. As they entered the intersection of North Mercer and North streets the car of Armstrong collided with the Carrier car, injuring Mrs. Couch to such an extent that she has been unable to work since.

Mrs. Couch asks \$7000 damages and Mr. Couch asks \$3000.
